- What does a “new economy” mean to you?
- In the video, Cooperation Jackson member Vernon Young talks about getting back to the ways things were in the community he grew up in. “Families, we all stuck together. If you didn’t have sugar, I didn’t have sugar.” Do you have community or family values you’re drawing on to be a cooperative leader? What are they, how did you learn them, and how will you draw on them?

- What forms of exploitation can cooperatives help people overcome?
- What resources is your community lacking? What resources do you have an abundance of? (Think about defining resources broadly!)
